REASONS FOR ALLOWANCE

1. The drawings filed on October 27, 2003 are accepted by the Examiner.

2. Claims 1-4, 7, and 10-19 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Sugahara (US 4,907,495) disclosed a damper comprising a pressure tube defining a working chamber, a piston dividing the working chamber into lower and upper chambers, said upper chamber sealed to eliminate direct communication to environment outside said damper; a piston rod defining a cavity and a compensator disposed within said cavity, said compensator dividing the cavity into a vented portion and a non-vented portion, said compensator being stationary with respect to the pressure tube; wherein said piston rod defines a vent hole extending between said cavity and atmospheric pressure. However Sugahara failed to disclose a solid disc shaped compensator and failed to disclose wherein the non-vented portion of the cavity being in communication with the lower working chamber.

The aforementioned limitations and the arrangements thereof are not taught in the prior art. In light of the foregoing, the claims of present application are found to be patentable over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
